The UF/IFAS Extension Florida 4-H Youth Development Program uses a learn-by-doing approach to help youth gain the knowledge and skills they need to be responsible, productive citizens. This mission is accomplished by creating safe and inclusive learning environments, involving caring adults, and utilizing the expertise and resources of the University of Florida and the nationwide land grant university system.

Florida 4-H reached over 201,000 youth, ages 5-18, through 4-H clubs, school enrichment, camping, school age child care programs, etc.—with the help of more than 12,000 volunteers trained by Extension/4-H faculty statewide.

Research indicates:

- 4-H Helps Young People Excel Beyond Their Peers
- 4-H Youth Make More Healthy Choices
- 4-H'ers Excel in School and the Sciences
- Young People in 4-H are Committed to Improving their Communities

Volunteers in Florida 4-H

Adult volunteers amplify the impact of paid county Extension Agents, reaching more youth and providing valuable mentors for young people. Studies confirm the value of a significant other adult in the life of a child. The ability of 4-H Programs to provide safe and secure environments is dependent upon the management and quality of trained volunteers. Likewise, other outcomes such as a sense of belonging and inclusive environments are related to the effectiveness of volunteers' relationship and interaction with youth.

Florida 4-H is supported by: **10,027 -Adult Volunteers**
2,366 -Youth Volunteers

Many voices combine to provide guidance for Florida 4-H programs at the county and state level. Important among these is the youth voice, which is critical to helping the program stay relevant and grow. County 4-H Associations provide sustaining support for 4-H programs in every Florida county. Volunteer leaders, community organizations, foundations, and county governments all play a role in the future of the program.
