Re: Counties given OK to start the New 4-H Report Year as of 12/8/05, most from DataGNV.zi zip file

If your county has not received an approval email from Nancy Johnson with final report .pdfs and a DataGNV.zip (or .zi) since 10/6/05, please double-check your email (including the junk folder). See attached OK2005.pdf for your notification date. Some counties have discovered that their county email system blocks .zip files and they may not even have received a message telling them that the OK email was received, but the DataGNV.zip attachment was blocked.

If you need it resent, send an email message to johnsonn@ifas.ufl.edu from the email account of the person who needs to receive the DataGNV.zi file. About half of the counties had their approval sent out 10/21/05 with a DataGNV.zip file attached. The rest were notified 12/7/05, with a DataGNV.zi file attached.

Flagler, Glades, Manatee, and Pasco got verbal approvals by phone, no data was received from the Seminole Tribe.

So far, ONLY the individual county ES237 reports for Combined and for Test Member/Leader (Individual data only) are posted for 2005 on the website http://4h.ifas.ufl.edu/FacultyStaffOnly/Reports_ES-237/index.htm

See the attached 12/7/05 newyear.pdf document for the next steps also at <http://4h.ifas.ufl.edu/4hbr/> Got OK Start New Year link.

There is a 10/21/05 Update for Youth Enrollment program files on the website, which should be applied to each workstation. <http://4h.ifas.ufl.edu/4hbr/#install/update>

The new master FL Project codes, Activity codes, and the newest Custom Report files (rbitem) should be copied into your Data folder location. They were included in the DataGNV.zip or .zi sent 10/21/05 or later. If you received verbal approval or a zip file before 10/21/05, go to <http://4h.ifas.ufl.edu/4hbr/> look at the top of the main page for: 10/21/05 added **FL06codes.zip** (unzip contents into Data folder to replace Activity & Project codes, and Custom Report files).

The newest Custom report is MCnoAProject which lists each active member who only has Inactive Projects (one line for each Inactive Project). MCnoProject lists active members who have no project at all. Use both reports to identify the members who need to have a project added or marked Active once you have completed the re-enrollment process.

A new master School Codes file, youth2xx.db, was created from your existing school codes. In order to add or edit schools in the drop-down list, you must first add the School Codes entry under File in the Youth Enrollment program. Watch the video at <http://4h.ifas.ufl.edu/4hbr/video/AddSchoolCodestoFileMenu.htm>

I will be out of the office 12/12-12/16/05 will not be available by email.

12/8/2005
